

SAVE THE DATE

JUNE 8-13, 2025 • Hyatt Regency Atlanta • Atlanta, GA

WHY ATTEND NAM29?

Hosted every two years since 1969, the **29th North American Meeting of the North American Catalysis Society (NAM29)** promotes the exchange and cooperation between 2,000 academic and industrial professionals from around the world in the field of catalysis.

CONFERENCE TOPICS INCLUDE:

- AI-Driven Catalysis
- Biomass and Waste Valorization Catalysis
- Catalysis in Liquid, Supercritical, and Multiphase Systems
- Catalysis for Pharmaceutical and Fine Chemical Synthesis
- Catalysis for Polymer Synthesis, Upcycling, and Recycling
- Catalysis for the Hydrogen Economy
- Catalysis of C₁ Chemistry
- Catalysis of C₂₊ Chemistry
- Catalyst Synthesis and Manufacturing
- CO₂ Capture and Upgrading
- Dynamic Catalysis
- Electrocatalysis and Photocatalysis
- Environmental and Automotive Catalysis
- Fundamentals of Catalysis and Surface Science
- Homogeneous, Molecular, and Supramolecular Catalysis
- Microporous and Mesoporous Materials
- New and Advanced Methods in Catalyst Characterization
- New Methods in Computational Catalysis
- Nitrogen Chemistry
- Novel Energy Inputs for Catalysis
- Reaction Engineering and Reactor Design

CALL FOR ABSTRACTS IS OPENING SOON!

DEADLINE TO SUBMIT: NOVEMBER 22, 2024

SPONSORSHIP AND EXHIBIT OPPORTUNITIES ARE AVAILABLE!

SPONSORSHIP: Contact **Chris Jones** at christopher.jones@chbe.gatech.edu
or **Haiying Chen** at chenh@ornl.gov

EXHIBIT: Contact **Jeff Kenvin** at jeff.kenvin@micromeritics.com
