

# PCCS 2026

## ANNUAL MEETING OF THE PACIFIC COAST CATALYSIS SOCIETY

September 12–13, 2026 | Oregon State University | Corvallis, Oregon

The Pacific Coast Catalysis Society invites you to its 2026 Annual Meeting at Oregon State University. This premier regional forum brings together chemical engineers, chemists, and catalysis researchers from across the Pacific Coast for two dynamic days of cutting-edge research presentations, collaborative networking, and professional development.

### PROGRAM HIGHLIGHTS

The comprehensive technical program features invited presentations from emerging and established pioneers in catalysis science across academia, national laboratories, and industry. A dedicated poster session will provide an invaluable platform for graduate students, postdocs, and early-career scientists to showcase their findings and interact directly with leaders in the community.

**Day One Unified Session:** The first day of the meeting will feature a single, high-impact program sequence, bringing all attendees together for a cohesive series of presentations delivered by expert faculty working in heterogeneous catalysis, electrocatalysis, photocatalysis, and more.

**Day Two Technical Workshops:** Day two transitions to interactive, hands-on instrumentation training designed specifically for graduate students and postdocs. These sessions offer dedicated training on specialized tools and characterization techniques, led directly by leading manufacturers and distributors (such as Anton Paar).

### SESSION & TOPICAL SCOPES

Presentations and breakout focus areas will comprehensively span fields including:

- Heterogeneous & Homogeneous Catalysis
- Electro- & Photocatalysis Mechanics
- Energy Conversion & Sustainable Technologies
- Advanced Chemical Manufacturing
- Plastics Circularity & Sustainable Materials Lifecycle

#### Co-Organizers:

Assistant Professor Lucas Ellis & Associate Professor Konstantinos Goulas  
*School of Chemical, Biological, and Environmental Engineering (CBEE), Oregon State University*

### ABSTRACT SUBMISSIONS

We strongly encourage graduate students, postdocs, and faculty working across all areas of catalysis to submit their abstracts. Gain regional visibility and constructive feedback on your latest research.

### SPONSORSHIP OPPORTUNITIES

Corporate and institutional sponsorship opportunities are available. Partner with us to support regional research excellence and invest in the next generation of catalysis scientists.

### LOCATION & VENUE

Hosted in the beautiful Pacific Northwest at the Corvallis campus of Oregon State University. Detailed travel, housing blocks, and campus logistics are available online.

For full registration, abstract submission guidelines, invited speaker bios, and travel details:
