

THE FOURTHTEENTH ANNUAL
EASTMAN
DISTINGUISHED LECTURERS IN CATALYSIS

EASTMAN

The results of insight™

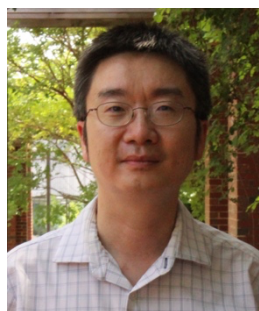

November 19, 2026

8:00 am to 11:00 am Pacific Standard Time

Registration: https://berkeley.zoom.us/webinar/register/WN_Q4-p-JdUR92B86h2VSheXQ

Additional event information: <https://events.berkeley.edu/events/event/290572-the-fourteenth-annual-eastman-distinguished-lecture>

Fanxing Li

*Thomas M. Clausi Distinguished Professor, North Carolina State University
“Dynamic Redox Catalysis with Multifunctional Mixed Metal Oxides”*

Aditya Bhan

*Distinguished McKnight Professor, University of Minnesota Twin Cities
“Selective catalytic combustion of terminal alkynes in mixtures with alkenes”*

Jeroen Anton Van Bokhoven

*Full Professor. Department of Chemistry and Applied Biosciences, ETH-Zurich and Head of Laboratory
at the Center for Energy and Environmental Sciences. Paul Scherrer Institute, Villigen, Switzerland
“Characterization of methanol-synthesis catalysts from carbon dioxide at high pressure”*

Liang-Shih Fan

*Professor, Ohio State University
“Chemical Looping Technology for Clean Energy and Chemical Production”*

Generous support for this visiting lecturer series is provided by Eastman
